

EN RLMM Newsletter (October 2021)

Frankfurt, 18 October 2021

Dear Colleagues,

We hope the second newsletter of this month finds you well and that you had time to enjoy some beautiful autumn days.

We would like to remind and inform you about the following topics:

URGENT - BIG DATA KNOWLEDGE HUB

Please remind, that the BIG DATA KNOWLEDGE HUB is now open for use. All the network members who did not register yet, are invited to do so: <https://bigdatahub.uvt.ro>.

All network members with big data files they would like to share and discuss with other members are invited to upload them. Big Data files can be data from the internet or administrative data.

The objective of the BIG DATA KNOWLEDGE HUB is to improve the knowledge and the competences of the network members on BIG DATA through the use of the BIG DATA KNOWLEDGE HUB. Therefore, exchange among the network members is crucial (the use of the Hub is exclusively for network members). There is a forum on the hub for this exchange purpose. It should be further developed to meet the needs and interests of the network members as best as possible. The members of the Big Data Working Group ask for your support on this. Please have a look at the table attached to this mail and fill it in according to your needs and interests. We extended the deadline. Please send it in until the 7th of November 2021 to Christa Larsen (c.larsen@em.uni-frankfurt.de). Thank you for your support. In 2022 the members of the Big Data Working Group will try to establish the exchange in the forum according to your needs mentioned in the tables.
