# THE REGIONAL NETWORK ON EUROPEAN LABOUR MARKET MONITORING

## EXPERTISE

Members exchange at annual meetings, work on common projects and publish in annual anthologies. A Big Data Working Group hosts regular seminars on emerging topics. The network is managed by a Scientific Committee that monitors topics, members and activities.

Network members are available for lectures, presentations, consulting or evaluation purposes. Anyone interested in exchange in the field of regional and local labour market monitoring is welcome to become a member of the EN RLMM.

## SCIENTIFIC COMMITTEE

A group of internationally renowned scientists provides a continuous theoretical and scientific basis for the work within the EN RLMM.

Members of the Scientific Committee have been active for many years and have been chosen to monitor and guide network activities. Chair of the Scientific Committee is Prof Marco Ricceri (EURISPES, Italy), vice chairs are Dr Andrew Dean (University of Exeter, UK) and Prof Ciprian Panzaru (University of West Timisoara, Romania). The daily business of the network is co-ordinated by Dr Christa Larsen (Institute for Economics, Labour and Culture (IWAK) of Goethe-University, Frankfurt a. M. Germany).

## Membership

We welcome new members, who share our vision, to join us in shaping the future of regional and local labour market monitoring in Europe.

For registration, please contact the Network Manager  
Dr Jenny Kipper (jenny@jennykipper.de).

**There is no membership fee.**

## MISSION

The mission of the European Network on Regional Labour Market Monitoring (EN RLMM) is to advance both the practice and impact of labour market monitoring across Europe at regional and local levels.

Founded in March 2006 at Goethe University Frankfurt, Germany, the members are dedicated to the development, dissemination, and application of innovative concepts, methods, and tools tailored to labour market analysis. They foster a supportive and collaborative environment and bring together a diverse group of experts - including researchers, policy makers, practitioners and labour market observatories - from more than 32 European countries and beyond.

The network is committed to promoting knowledge exchange, mutual learning, and cooperation among more than 400 members. Through initiatives such as the Annual Meeting, the Annual Anthology, collaborative projects, regular newsletters, and the Big Data Knowledge Hub, a robust platform for members is provided to share insights, research findings, and best practices.

The EN RLMM serves as an expert network for those engaged in, or interested in, regional and local labour market monitoring through offering formats for exchange and learning.

## CO-ORDINATION

The EN RLMM is co-ordinated by Dr Christa Larsen from the Institute for Economics, Labour, and Culture (IWAK) of Goethe-University in Frankfurt a. M., Germany.

# ACTIVITIES WITHIN THE EN RLMM

## ANNUAL MEETINGS

The Annual Meetings of the EN RLMM are hosted by members in alternate countries. The conferences cover the topic of the annual anthology and bring together researchers, politicians, and practitioners.

## BIG DATA WORKING GROUP

In 2015 the Big Data Working Group was established within the EN RLMM. It explores the various possibilities for using Big Data in labour market monitoring and the associated challenges.

## ANTHOLOGIES

The network community publishes an annual anthology on a specific topic. These publications cover current developments and state of the art in regional and local labour market monitoring.

They present best practice examples from different regions and localities, but also discuss challenges and perspectives.

## HOSTS OF THE EN RLMM ANNUAL MEETINGS

- **Institute for Economics, Labour and Culture (IWAK) of Goethe University Frankfurt/ M., Germany (2006)**
- **Sapienza University of Rome, Rome, Italy (2007)**
- **National Training and Employment Agency (FÁS), Dublin, Ireland (2008)**
