Dear colleagues,

we wish you all a happy new year – even when it had started some days ago. Hope you had a good beginning and 2024 will be an interesting and happy year.

**REMINDER - REQUEST FROM REGIONAL OBSERVATORY ON THE LABOUR MARKET OF VENETO LAVORO**

In case you missed it, please note this request of our two colleagues from the Regional Observatory on Labour Market of Veneto. They are currently working on gender pay gap and gender equality within their labour market. They are looking for other regional observatories to share ideas on data and methodologies on the following topics:

- Identification of social, economic and psychological factors that generate and strengthen inequalities between men and women;
- Identification of best practices from the experience of other

European countries, which might inspire policies and programmes to be implemented in the regional context

- Understanding how the collective bargaining system can contribute to rebalancing the gender pay gap in Italy;
- Research indicators used at international level to measure the gender pay & employment gap, highlighting which aspects of the phenomena are considered, critical aspects, open issues etc.

Should you be interested in receiving more background information, please contact:

## GOOD TO KNOW ABOUT - ... LUGANO

The city of Lugano, nestled between the mountains and Lake Ceresio, is a lively center where the dynamism and internationality of conferences,

prestigious banks, exhibitions and museums blend with the relaxing atmosphere of its colourful parks and sunsets on the lake. With its small historic center at the lake, perfect for strolling. Lugano is the perfect

destination to experience "la dolce vita". You can spend your time between a walk in Parco Ciani and a visit to the LAC, between a trekking on Monte San Salvatore and a lunch in one of the many typical restaurants where you can taste traditional Ticino recipes.
